

**IN THE CLAIMS:**

These claims will replace all prior versions of claims in the present application.

1. (Currently amended) Medicine chest comprising  
a chest body-(10);  
a plurality of storage compartments-(34, 36, 38, 50), and  
a shutting means (34) for closing the chest body-(10),  
wherein  
said shutting means (24)-is displaceable for opening/closing said chest body-(10).
2. (Currently amended) Medicine chest of claim 1, wherein said shutting means (24)-is  
displaceable into a receiving portion (28)-so that all storage compartments-(34, 36, 38,  
50) are accessible at the same time.
3. (Currently amended) Medicine chest of claim 2, wherein each receiving portion is  
designed as a receiving compartment-(28, 52).
4. (Currently amended) Medicine chest of claim 3, wherein said receiving compartment  
(28, 52)-is formed at the rear-(20) of said chest body-(10).
5. (Currently amended) Medicine chest of claim 3-~~or~~ 4, wherein an inner surface-(40) of  
said receiving compartment-(28) serves as a stop for storage compartments designed  
as draw-out compartments-(34, 36, 38, 50).

6. (Currently amended) Medicine chest of ~~one of claims 1-5~~claim 1, wherein said shutting means (24) is vertically displaceable for opening/shutting the chest.
7. (Currently amended) Medicine chest of ~~one of claims 1-6~~claim 1, wherein one storage compartment (50) has the width of the chest body (10) and a size adapted to receive a first-aid pack.
8. (Currently amended) Medicine chest of claim 7, wherein said first-aid compartment (50) is a hinged compartment.
9. (Currently amended) Medicine chest of ~~one of claims 1-8~~claim 1, wherein a plurality of storage compartments form a self-medication portion (44).
10. (Currently amended) Medicine chest of claim 9, wherein the self-medication portion (44) comprises a plurality of drawers adapted to be provided with notes.
11. (Currently amended) Medicine chest of ~~one of claims 1-10~~claim 1, wherein at least one storage compartment (52) is designed as an upright compartment with a flange (54) for drugs to be stored upright.
12. (Currently amended) Medicine chest of ~~one of claims 1-11~~claim 1, wherein a plurality of storage compartments (34) form a portion (46) for individual medication.
